

~~Secure YOUR LOAD~~

Keep it off the road

Doing a garden clean-up? Keep your garden waste off the road—secure your load before heading to the tip.

Follow these simple steps:

- Make sure your tarp covers the whole load.
- Don't cover lights or numberplates.
- Limit the overhang from your vehicle.
- Don't overload the vehicle-make two trips if necessary.
- Tie the load down securely.
- Remove or secure loose items that could blow away or bounce out.

Roadside litter is a hazard to other road users, and it is an offence to drive a vehicle with an unsecured load. Report roadside litter at www.roadreport.nt.gov.au
